## PROFILE

I am a Frontend developer with expertise in developing responsive websites and proficiently implementing Figma designs. I have a keen interest in acquiring knowledge about the latest technologies, transforming concepts into actuality, and working alongside committed teams to create effective and resilient applications.

## PROFESSIONAL EXPERIENCE

**Frontend Developer**                                                                 09/2022 – 01/2023
*Hero Technologies*                                                                         Abuja, Nigeria
- Develop new user-facing features
- Collaboration with team members to ensure technical feasibility of designs
- Build reusable codes
- Working with APIs to ensure interactivity.

**Frontend Developer**                                                                 02/2023 – 05/2023
*Nigeria Police Force Central motor Registry*  🔗                          Abuja, Nigeria
- Meeting with development team to discuss user interface ideas and applications.
- Reviewing application requirements and interface designs.
- Identifying web based user interactions.
- Developing and implementing highly responsive user interface components.
- Troubleshooting and debugging application codes.
- Monitoring and improving frontend performances.
- Documenting application changes and developing updates.

**Frontend Developer (Contract)**                                                05/2023 – 10/2023
*Paritie Dynamic Enterprise Limited*  🔗                                             Nigeria
- Creating reusable and efficient React components to enhance code maintainability and scalability.
- Building responsive web applications that work seamlessly across different devices and screen sizes.
- version control with Git and efficient collaboration within the development team

## PROJECTS

**E-commerce website**  🔗

**Central Motor registry**                                                            02/2023 – 05/2023
*https://cmris.npf.gov.ng/*

**Striit App**  🔗                                                                                        2023
Striit is more than just an app to check for available parking spots and bylaw updates. It's a community of drivers and app users helping one another avoid parking tickets, keeping cars safe, and making parking better—together.

**Maturation farm**  2024
*https://www.maturationfarm.com/*
Maturation Farm was developed using React.js to showcase the richness of the business and highlight their offerings in sustainable agriculture. They specialize in acquiring and managing premium agricultural assets for both private and institutional investors.

**Pricefic**  🔗  2023 – 2024
*A product of https://pheeque.com/*
